

## NEIGHBORHOOD STREAM

A stream that runs through the park in a suburban housing development. Water flows at a slow rate. Lots of leaf litter and woody debris are present.

## FLATBROOK AT THE NEW JERSEY SCHOOL OF CONSERVATION (NJSOC)

A stream that flows over rocks through a state forest. Water flows quickly; lots of rocks, leaf litter, and woody debris present.

## DAIRY FARM LAKE

A lake at the edge of a dairy farm, surrounded by fields. Water flows into the lake from a stream. Lake bottom is muddy, no leaf litter or woody debris present.
