

The Honorable Richard J. Codey
District 27
651 Old Mt. Pleasant Avenue
Livingston, NJ

Dear Governor Codey,

Thank you so very much for supporting the legislation for the New Jersey School of Conservation.

It's impact on my life cannot be overestimated. I attended for many summers while growing up in West Orange.

Currently, as a retired Industrial Engineer, my title as a volunteer at The Living Desert in Palm Desert, California, is "Conservation Ambassador". When my husband and I are in Pennsylvania for the other half of the year, I am a Penn State Master Gardener who specializes in monarch butterflies. This past October I had the honor of teaching a class on butterfly gardening at the NJSOC.

My gratitude to the NJSOC for my life of studying and teaching conservation is immeasurable. I am certain, Governor Codey, that the continuation of the management under the capable and devoted Friends of the NJSOC will ensure its impact on the generations to come.

Most respectfully,
Barbara Rosenberg
